# ENGLISH CONCENTRATION

### Prepare For Four-Year Programs!

The Liberal Arts Associate of Arts with a Concentration in English serves as a launch pad for transferring into four-year programs! This program helps to develop strong college-level writing, analysis, and research skills applicable to upper-level courses in four-year degree programs across a wide variety of disciplines. English-centered degrees develop highly transferrable skills, including the ability to analyze and interpret complex information, the ability to communicate cohesively and logically across media, and the ability to think creatively and independently.

Liberal Arts studies focuses on developing critical thinking and communication skills - which according to the National Association of Colleges and Employers, are highly sought after by employers. Therefore, students who complete the Liberal Arts Associate in Arts can choose between transferring into a baccalaureate degree program, or into their career.
