

A photograph of two men in a laboratory setting. They are wearing white lab coats and safety glasses. One man is using a pipette to transfer liquid into a small vial. The background shows shelves with various lab equipment and a human skeleton model.

Liberal Arts

Associate of Arts

Prepare For Four-Year Programs!

The Liberal Arts Associate of Arts program offers the equivalent of the first two years in a four-year baccalaureate program. The program allows students to easily continue their education, or enter the workforce. A faculty advisor works with each student to design the program that best meets the student's future plans. If a student wishes to transfer to a four-year program, the requirements of the college their transferring to will guide some of the course selections. The future plans and areas of interest for each student will also contribute to the program design.

Liberal Arts studies focuses on developing critical thinking and communication skills - which according to the National Association of Colleges and Employers, are highlight sought after by employers. Therefore, students who complete the Liberal Arts Associate of Arts programs can choose between transferring into a baccalaureate degree program, or into their career.
