

# Respiratory Therapy

## Associate of Science

### Use Your Technical & Interpersonal Skills!

Respiratory Therapists are health care professionals who are highly trained in the treatment of lung disorders. The roles of Respiratory Therapists are extensive including:

- Administering aerosolized medication,
- Initiating and maintaining life support equipment,
- Establishing and maintaining patient airways,
- Delivering patient education,
- Participate in diagnostic testing of lung disorders.

The program goals are to prepare graduates with demonstrated competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains of respiratory care. The Respiratory Therapy Program is fully accredited by the Commission of Accreditation of Respiratory Care (COARC), accreditation number 200249.
